

Photon Energy Group is a group of companies with a shared mission: making clean energy, clean water and clean environments accessible to everyone.

Photon Energy provides comprehensive solutions that support the generation of clean energy and the integration of renewables into the electrical grid. **Photon Water** offers water treatment and management solutions, and **Photon Remediation** deploys advanced technology to remove contamination from all environments.

A publicly traded company operating in over 15 countries across two continents, we combine a global outlook with localised expertise.

Since our founding in 2008, we've expanded to a team of more than 400 employees around the world. And we're committed to fostering a culture of shared values and sense of purpose as we continue to grow.

Service Technician

We are looking for skilled and motivated Service Technicians to join our **Operations and Maintenance team**. You will be working at a photovoltaic power plant, supporting our new clients near **Opole (Rutki)**, handling preventive and corrective maintenance tasks.

We're hiring for **two new colleagues: one with a focus on medium voltage systems**, and **one with high voltage expertise**. If you're passionate about clean energy and want to work in a growing industry, we'd love to hear from you.

Key Responsibilities

- ▶ Inspecting and maintaining photovoltaic power plants to keep them running smoothly
- ▶ Troubleshooting and resolving technical issues promptly, ensuring smooth and uninterrupted operations of the plants
- ▶ Preparing protocols and reports for the Technical Manager, providing clear insights on ongoing projects
- ▶ Monitoring the performance of equipment on photovoltaic farms, identifying opportunities for improvement and ensuring long-term functionality
- ▶ Upholding the highest standards of health and safety, complying with Polish regulations
- ▶ Collaborating with subcontractors and suppliers, ensuring timely and quality execution of work
- ▶ Communicating effectively with clients, offering solutions to improve relationships and satisfaction

Qualifications and Experience

- ▶ Electrotechnical education
- ▶ At least 2 years of experience as an electrician or service technician
- ▶ Experience working with medium voltage or high voltage
- ▶ Polish language at a native speaker level and English at a pre-intermediate level (for writing e-mails, preparing reports)
- ▶ SEP qualification (E+D up to 30kV) is an advantage
- ▶ Experience working on a solar power plant or wind farm is preferred
- ▶ Active driver and willingness to travel to our customers
- ▶ User proficiency of MS Office package
- ▶ Strong organisational skills and sense of ownership – you will schedule your own activities
- ▶ Willing to occasionally be on call during weekends or holidays (based on a pre-arranged schedule) to ensure the plant operates smoothly

Our Offer

- ▶ An interesting job at a fast-growing global organisation in the promising fields of renewable energy, environmental remediation and clean water technology
- ▶ Indefinite full-time employment contract
- ▶ 20 / 26 days of vacation (based on work seniority), 1 CSR day (a working day dedicated to a non-profit organisation aligned with the Group's mission and values)
- ▶ Medicovert SPORT allowance
- ▶ Medical package allowance and Meal allowance (Edenred card, 300 PLN / month)
- ▶ Team-building and corporate events
- ▶ Company car, laptop and mobile phone

If you are interested in the position and fulfil the above requirements, please apply online or send your CV to careers@photonenergy.com.
